

# Organic Compound Fertilizer 6-8-10

Organic Compound Fertilizer 6-8-10 contains a perfect combination of fast and slow-acting constituents. Most of the nutrients are released gradually over a period of three months. Organic Compound Fertilizer 6-8-10 has a high organic matter content, which means the presence of essential trace elements that contribute substantially to the fertility of the soil.

## Advantages

- Perfect balance of minerals
- Fast and progressive action of nutrients
- Neutral odour

## Areas of application

- Vegetables cultivation
- Vineyards
- Fruit cultivation
- Tree cultivation

### Average composition

<b>Dry matter</b>	88% min.
<b>Moisture</b>	12% max.
<b>Organic matter</b>	47%
